FRIDAY, JUNE 1, 1894.

The treasury deficit for the last twelve  
months amounts to \$78,000,000.

The mine operators' conference at  
Springfield yesterday was a failure and  
the idea of those who attended was, after  
adjournment, that hereafter it would be  
"every man for himself and the devil  
take the hindmost."

The senate struck out every vestige  
of tariff on lumber yesterday, but the  
tariff on collars and cuffs, the tariff on  
sugar, and the tariff on coal and iron ore  
remains, because there is a senatorial  
Democratic vote for the infamous bill  
behind each of these products.

JOHN M. SMYTH declined to accept the  
appointment of election commissioner  
for Cook county, and Judge Scales has  
appointed John J. Badenoch, the gentle-  
man selected by the Republican commit-  
tee and the man he refused to appoint  
some months ago at the request of the  
same committee.

The gospel of hate which has been  
preached by Grover Cleveland and other  
Democratic leaders has bred an alarm-  
ing amount of anarchy and socialism in  
this country, much of which the party  
they represent will have to contend with  
before the country gets back again to  
honest principles.

While the Macon county Republican  
convention did not instruct for Major  
James A. Connelly for congress, the  
entire convention and all the Republi-  
cans in the county are for him, and  
the delegates to the convention to be  
held in Springfield, June 14, will vote  
solidly for the Major.

This is a bad year for the Breckin-  
ridges. The Arkansas one has been  
defeated for the nomination for congress.  
The Kentucky one has been defeated in  
court by Miss Pollard and is on a fair  
way to defeat in his district for renom-  
ination. Let them go. They have been  
of little service to the country.

It is utterly useless for labor leaders  
to attempt to keep up wages so long as  
the Democratic policy of destroying the  
conditions which gave employment to  
labor is in operation. In other words,  
wages cannot be kept up when there  
are millions of idle men who have fami-  
lies to support in the country.

If the Democrats could be induced to  
make the coming campaign with the  
banners they used in 1892 a Democratic  
parade would become a curiosity. "Vote  
for Cleveland and Dollar Wheat," "The  
Tariff Should be Revised by Its Victims,"  
"Give the Poor Man a Chance," "Down  
with the Tariff Taxes," "Down with the  
Robber Barons," and "Turn the Rascals  
Out," would make the average voter  
wonder where the Democrats "was at."

Macon county Republicans hold the  
right of the line in this congressional  
and senatorial district. Upon them will  
possibly fall the duty of electing a Re-  
publican congressman and a Republican  
senator this fall. The way to do this is  
to start in with the determination to  
elect the county ticket by 1000 plurality.  
This can be done if every Republican  
will do his duty. To do this it will be  
necessary to abandon the idea of punish-  
ing at this time those who have been  
breeding discord in the party, and at-  
tend to them after the victories have  
been won.

The fellow who openly boasts of and  
shamelessly relates his wonderfully deep  
laid schemes in managing a convention  
for the people, is always a person who is  
utterly powerless to aid in the slightest  
degree in the election of a ticket or the  
advancement of the party's interests.  
It is this class of men who in times past  
have disorganized and injured the Re-  
publican party; and now as the party is  
attempting to take on a new lease of  
life and power, it should not only be  
first in order, but should be a question  
of the highest privilege, to sit upon  
them until they become very much ex-  
hausted.

A Letter to Springer.  
Some time ago one of Mr. Springer's  
constituents who has been waiting for  
the promised raise in wages until he got  
fired wrote the congressman a very in-  
teresting letter, from which the follow-  
ing is an extract:

You told me in a speech at Taylorville  
that the McKinley law robbed me from  
the crown of my head to the soles of my  
feet, and that if I would help elect a  
Democratic government this robbery  
would be stopped. I did as you request-  
ed, and after a year of wrangling and  
a horse policy that has made the Demo-  
cratic party the laughing stock of the  
whole country, I would like to ask, what  
have you done? What has the party  
accomplished? Have you kicked the  
robber out, or is he still robbing? And  
if so, when are you going to stop him?  
You say this bill will make everything  
cheap except labor, and you expect  
the laboring man to believe it. Now,  
honestly, Mr. Springer, do you believe  
there is a laboring man in the country

idiotic enough to believe such a crazy  
theory. Don't you know that every mill  
that has started up within the past few  
months has done so at a reduced  
scale? Don't you also know  
that every mill that will start up af-  
ter the Wilson bill becomes a law will  
do the same thing? Do you imagine  
for one moment that the laboringmen of  
this country are letting the Democratic  
party do their thinking for them, and do  
you really think that after the experi-  
ence of last year the laboringmen will  
still retain his confidence in you and the  
stories you have told him before election?  
No, you don't believe it, William. You  
are not such a fool as that, and I know  
that you are now nearly at your wit's  
end trying to think up some new scheme  
to fool them when you make your an-  
nual tour through the district.

Mining in Southern Illinois.  
The following communication to the  
Chicago Evening Journal on the coal  
question, will at this time be of interest  
to all:

CHICAGO, May 30.—To the Editor.—  
In H. H. Porter's communication to the  
Superintendent of the Chicago and  
Eastern Illinois railroad he states  
pointed facts as to acts of lawlessness.  
But Mr. Porter does not stop until he  
has fired a shot at Central and Southern  
Illinois operators. Thus it appears that  
the owners of mines capable of produc-  
ing the cheapest coal are made to bear  
the burden (from utterances of com-  
petitors who cannot compete). The con-  
dition of the miner in Central and South-  
ern Illinois will be found much better  
than those in Indiana or North-  
western Illinois, yet operators from  
these fields "jumpy" for an ad-  
vance in other fields and a reduction  
in their own. Central and southern Il-  
linois miners are able to earn more  
money with less labor than their com-  
petitors, and that is the thorn that  
pricks. These mines have six to eight  
feet of coal, and are free from water,  
which makes mining easy and profitable  
to the miner. Yet these "agitating op-  
erators" from Indiana and northern Il-  
linois have caused miners of central and  
southern Illinois to "expect an advance,  
and already it is a known fact that they  
are getting ready to limit each miner's  
work, thus curtailing the output. If a  
miner can live on five hours' work a day,  
as they propose to do, by limiting their  
individual output, does it stand to reason  
that he is not well paid? Yet that is  
precisely what the union proposes now  
to do in central and southern Illinois.  
The increased tonnage of central and  
southern Illinois has so exasperated  
operators of competing fields that they  
misrepresent the conditions in order to  
check their loss of business which they  
have to face year by year. If those gen-  
tlemen knew their best interests, they  
would accept the inevitable, abandon  
the narrow veins of Illinois and locate  
farther south where they can produce  
cheaper coal. OBSERVER.

The readers of this paper will be  
pleased to learn that there is at least one  
dreaded disease that science has been  
able to cure in all its stages, and that is  
Catarrh. Hall's Catarrh Cure is the  
only positive cure now known to the  
medical fraternity. Catarrh being a  
constitutional disease, requires a consti-  
tutional treatment. Hall's Catarrh Cure  
is taken internally, acting directly upon  
the blood and mucous surfaces of the  
system, thereby destroying the founda-  
tion of the disease and giving the patient  
strength by building up the constitution  
and assisting nature in doing its work.  
The proprietors have so much faith in  
its curative powers that they offer one  
hundred dollars for any case that it fails  
to cure. Send for list of testimonials.

So, was a gem, and as an encore she gave with beautiful effect the "Cuckoo Song." The range and power of her voice charmed her auditors. Mrs. Templeton as Miss Berry appeared in the first of the two former festivals given by Mr. Lutz, and while she firmly established her gifts as a favorite soloist on that occasion, last night she won fresh laurels to the delight and pleasure of her friends. The company of her finely cultivated voice is wonderful, the shading and the intonation being that of a professional.

Mr. Humphrey's "The Holy City" was a magnificent production and he gave as an encore a lively air which pleased the house.

The Ar on quartette sang the "Bachelor's Apology." It was a fine selection, capitalily executed, and the audience responded by demanding an encore, which was gracefully given.

Miss Pinckard's solo, "Spring Tide," was a beautiful production and the audience demanded and received an encore. In response to repeated calls, the lady sang "The Bower," a beautiful number. Miss Pinckard's silvery notes were heard with pleasure. It is always a privilege to hear her.

Mr. Porteous has reason to be proud of the favor extended him. He received a perfect ovation, and was forced to respond to two encores. The encore selection, "Seven Bonny Maidens," was received with a perfect storm of applause, and the audience would not be satisfied until he had appeared and repeated two verses of the favorite song. The duet, "Excelsior," by Messrs. Humphrey and Porteous, was well received and beautifully rendered.

In the closing chorus, "Praise Ye the Lord," with Humphrey and Porteous and Mrs. Templeton and Mrs. Gher, the climax of the first night's entertainment was reached. The principals distinguished themselves surprisingly well, although what had gone before was an object of what might be expected in the first number. The voices of the principals were heard above the mighty chorus, and none was more distinct than that of Mrs. Templeton, whose sustained melody added much to the beauty of the production. The work of the gentlemen and Mrs. Gher in this number also merits full praise.

The interest which was intense throughout was maintained until the set number had concluded and the vast audience slowly withdrew. The pleasure of the evening was enhanced by the fine performance of Mrs. Sherman McClelland and Miss Bertha Gray who presided at the piano as accompanists. The success of the entertainment is assured and the house was crowded to-night.

END OF THE FESTIVAL.

In spite of other attractions in the city last night the audience present at third and last concert of the May festival was the largest that has yet attended. The afternoon matinee also called out a very large attendance. Following was the program for the matinee:

MATINEE—PART FIRST.  
Overture—"Die Schone Galathee".....Suppe  
Chorus—"We Praise Thee, O God".....Bristow

The work done met with a warm reception from the audience, and very properly so, as it merited every expression of favor it received. The second rendition of numbers was even better than on the first night, as every participant seemed more confident of his or her power. A storm of applause greeted Mr. Porteous at the conclusion of his masterly rendition of "The Song of a Heart." This song is by Mr. Humphrey, the tenor soloist of the festival, and its melody and harmony show Mr. Humphrey to be a composer of rare talent. For the encore Pinsuti's "Bedouin Love Song" was given. Mrs. Templeton sang, "Till Me," with wonderful and entrancing sweetness, and response to a very enthusiastic call sang for the encore, "Sleep, Little Baby of Mine." Miss Pinckard and Mr. Humphrey gave a duet number, entitled "A Night in Venice," with such captivating harmony as one seldom hears between two voices, and a repetition was twice demanded and twice given. Miss Pinckard gave Neidlinger's "Shepherd Song" in a very highly artistic manner, and as an encore she gave "Once" by Harvey with great effect. "I Love Her" was given by Mr. Humphrey with much taste and fine expression, and in the duet, "I Feel Thy Angel Spirit," by Hoffman, Mr. Humphrey sang with Mr. Porteous and they were profoundly applauded.

A large and enthusiastic audience was present at the tabernacle last night to witness the closing performance of the May festival. Representations were present from Cerro Gordo, Maroa and other neighboring towns. The REPUBLICAN gave a full report of the first concert, it is not necessary to give details to-day. Following was the program for the evening.

PART FIRST.  
Overture—"Golden Gate".....Bach  
Chorus—"We Praise Thee, O God".....Bristow  
Solo—"The Song of a Heart".....Humphrey  
Chorus—"Gallant and Gaily".....Horsley  
Solo—"Till Me".....Godard

Duet—"A Night in Venice".....Miss Pinckard and Mr. Humphrey  
Chorus—"The Lord is My Shepherd".....Trowbridge

PART SECOND.  
Chorus—"Hark, Apollo Strikes the Lyre".....Bishop  
Solo—"Shepherd's Song".....Neidlinger  
Chorus—"Far Away the Camp Fires Burn".....Mercadante  
Solo—"I Love Her".....Horsley  
Chorus—"The Lord's Prayer".....Hoffman

Chorus—"Praise Ye the Lord".....Psalms OXLVII  
Sole by Mrs. Templeton, Mrs. Gher, Messrs. Humphrey and Porteous.

At 8:20 Prof. Walter's large orchestra opened with an overture, "Golden Gate" that was a masterpiece, received with great applause. The choruses were exceptionally fine, and as conducted by Mr. Lutz, the full strength of the chorus was sung and the singers were at their best last night. Mrs. Templeton's solo, "The Violet," written for and dedicated to Mrs. Templeton by Mr. Burnham, enabled the Decatur vocalist to give expression to the highest quality of her trained and musical voice, in a manner that elicited a genuine and hearty encore. Mrs. Templeton responded and sang Rodolphi's charming "Meditation." The Hungarian air, violin and piano, by Bessie and Milton Lutz, brought down the house. The encore "March and Variations," from "Othello," by Ernst, was also received with a storm of applause. The treble number, "Three Thoughts," by Neidlinger, given by Miss Pinckard, of Monticello, gave this talented lady an opportunity to test the wonderful compass of her versatile voice. Miss Pinckard is an artist. "At Parting" was the nice response to a rousing encore. Mr. Humphrey and Mr. Porteous, of St. Louis, were made of praise for their splendid and artistic renditions. Mr. Humphrey sang a solo,

"For All Eternity," in a style that captivated his audience, and responded to a double encore, both renditions calling forth immense applause. Mr. Porteous sang the charming English ballad, "She Alone Charmeth my Sadness," receiving a double encore to which he responded, every number having more than a pleasing effect. Our own Arion quartette, composed of Messrs. Chilson, Montgomery, Bunn and Brown, were awarded high honors for their superior work. They sang in their own inimitable style, "Appear, Love, at Thy Window," and of course they were called out the second time. The blending of the voices of Miss Pinckard and Mr. Humphrey was perfect. Their duet, "A Night in Venice," was enthusiastically received, and an encore was demanded. The last number, "Praise ye the Lord," was a fitting climax to the May festival for 1894. This chorus alone was worth more than the price of admission and showed the matchless skill of Mr. Lutz and Prof. Walters, as well as the following soloists who also carried their respective parts with universal favor, viz: Mrs. Templeton, Mrs. Gher, Messrs. Humphrey and Porteous. Mr. Lutz personally thanked Prof. Walters for his services and that of his orchestra, stating that the public is indebted to Prof. Walters for the May festival as he (Walters) had arranged all of the music and he wanted to give credit to whom credit is due. Mr. Lutz added that it was his purpose to prepare a rich musical feast, and that while it had not paid him much in dollars and cents, he was glad that his efforts were appreciated.

Elder Geo. F. Hall, pastor of the First Christian church of this city, said that he was acquainted with several eminent chorus leaders, and he was glad that Decatur has a musical conductor who is equal to the best. The elder, on behalf of his church, extended thanks to Prof. Lutz, Walters, the singers, newspapers and citizens.

RECEIPTS OF HOGS FOR MAY.  
They Have been Ahead of Previous Records and the Prices Equal.

Receipts of hogs for May have been over 100,000 larger than the meagre run of last year, and about 173,000 less than in 1892, but they were 50,000 to 60,000 larger than the average May receipts at Chicago for the past fifteen years. The average price was close to \$5, against \$7.45 in May, 1893, and \$5.07, the average price for the sixteen years ending last year. From these figures it will be seen that while receipts have kept up well, the prices have also kept up remarkably well for the dull times. The demand for fresh pork, however, has been strong enough to keep the stocks of provisions the smallest on record for the season, and the statistical situation makes it quite clear that had the wheels of commerce and industry been buzzing as they should the prices for hogs would not have been far below the exorbitant figures of the World's Fair and Cudahy corner year.—Drovers' Journal.

A DELIGHTFUL MUSICAL  
Given Yesterday Afternoon by Dr. and Mrs. Will Barnes.

A most enjoyable afternoon musicale was given yesterday by Dr. and Mrs. Will Barnes at their home on West William street. Among the musical people who took part were the best musicians who are taking part in the May Festival. The guests were Messrs. Pinckard of Monticello, Buck of Chicago, Stark of Springfield, Louis Boyd and Belle Ewing of Decatur, Mrs. Earle and Mrs. Templeton of Chicago, Mrs. Hill of Lincoln and Mrs. G. D. Thomas of Decatur, Messrs. Humphreys and Porteous of St. Louis, Frank and Ed. Powers, Mr. and Mrs. Arthur Alexander, Dr. and Mrs. Will Barnes.

A Pathetic Story.  
Could anything be more painfully pathetic than the old farmer's story of how he and his wife lived and drugged, and how she finally gave up the fight, and took time to rest? He said, in his homely way:

I've put in fifty years farming and I never drank liquor in any form. I've worked from 10 to 15 hours a day, been economical in food, and never went to a show more'n a dozen times in my life; raised a family and learned upward of 200 calves to drink out of a tin pail without blowing their virtuous up my nose. My wife worked along side of me, sewing new seats on the boys' pants, skimming milk and even helpin' me load hay. For forty years or more we toiled together, and hardly had time to look into each other's faces or dared to stop and get acquainted with each other. Then her heart failed. Ketched cold in the spring house, probably skimming milk and washin' pans, scaldin' pails and spankin' butter. Anyhow, she took a long breath one day while me and the doctor was watchin' her, and she says to me: "senry," says she, "I've now a chance to rest," and she put one tired, wornout hand on top of the other where out hand, and I knowed she'd gone where they don't work all day and do chores all night.—Mt. Carmel Register.

Warm Weather Coming.

In a few days warm weather will be here and the members of the family who have to be in the house nearly all day will feel it the most. To make their burdens lighter get a "Jewel" gas or gasoline stove.

A DASTARDLY TRICK.

Attempt to Wreck a Train Carrying Troops to Panama.

Taylorville Courier.  
On last Saturday night a dastardly attempt was made by some miscreant to wreck the train carrying the state militia to Panama. The four axles were removed from the farm wagon of John Warner and with a piece of hard wood and the wagon hammer were fastened in the frog of the switch east of the hay barn. The train was running slowly and crushed one of the axles into pieces, but remained on the track and received no damage from obstruction. It is terrible to think that a man who could plan and put into execution such a cold-blooded and treacherous attempt against the lives of men of his own city who were on the train, lives in our midst. As yet no clue has developed that will likely lead to the apprehension of the coward who could plan and execute such a contemptible piece of murderous mischief.

The Decatur Guards were on the train in question.

WILL OWN A MINE.  
The Illinois Central Likely to Operate One for Itself.

It is understood that the Illinois Central railroad company has taken charge of one of the mines at Centerville and declares that it will operate it within the next few days. There are many miners there who are anxious to go to work provided they get sufficient protection from the company, and it is understood this has been promised them. The plan is to arm a sufficient number of men, place them about the mine and then carry along the work of getting out coal, regardless of what may come.

The Central will have to do this or abandon their trains. At the beginning they thought they had plenty but the strike has lasted so long they can now see the bottom of the pile.

Witnessed "Salvini."  
A number of young gentlemen gave a theatre party last evening at the Grand. After enjoying Salvini's production of "The Three Guardsmen," a supper was served at Krebs'. The guests were Misses Ella Rice, Louise Boyd, Belle Scroggins, Alice Bering, Margaret Roberts, Annie Rainey, Anna Strohm, Gusella Gorin, Gertrude Magill of Clinton, Henrietta Scott of Bloomington, and Miss Latham of Lincoln. The gentlemen who gave the party were Frank and Ed. Powers, Thad. Schroeder, George Matthews, Kyle Bohon, Arthur Dunont, John Maus, Dr. J. D. Moore, Dr. Carlton, J. Goodson and Frank Evans.

Ready for Business.  
The Decatur Mutual Telephone is now ready to answer all calls and it can get answers for most of them. This being June 1, the date it promised last to begin business, it expects to keep its word. Three operators are at work now in the day time and one at night. They are Miss Belle Hill, Miss Ola Shiner and Miss Dixon in the day time, and Miss Myrtle Shiner at night. The night operator was on duty last night for the first time. There are still more sections of the switchboard to put in, and then another operator will be added to the force.

**SOCIETY MEETINGS.**

**DAUGHTERS OF HEBEKAH**—Regular meeting of Progress Degree Lodge No. 141, I. O. O. F., this (Friday) evening at 8 o'clock sharp, at Old Folgers hall, corner North Main and Water streets. **DEBRYE REEVE, N. G. MARY KELLINGTON, Sec.**

**MASONIC**—Special meeting of Macon Lodge, No. 8, A. F. and A. M., will be held to-night at 7.30 sharp. All Masons are requested to be present. **W. R. BUCKMASTER, W. M. W. L. HAMMER, Sec.**

**ROYAL ARCANUM**—Regular meeting to-night. All members are requested to be present. **E. I. HUNT, Regent. JAMES KEAVIS, Secretary.**

**An Explanation.**

We, the presidents of the several Councils of the city of Decatur, wish to say to the public, that the committee appointed to confer with the Board of Education did nothing nor made any demands on the board more than they were instructed to do by the Councils. We noticed several days ago an article stating that they went beyond their instructions. Such was not the case with our Councils; neither was it true as to the P. O. S. of A., as they understood the object of the several orders, and acquiesced in every arrangement, and also had their representatives along. If anything was done or said, or any demands made on the board that was not in accordance with their instructions, they had a right to say so then and there; but silence prevailing we took for granted all was satisfactory. When the matter was being talked over they were consulted and concurred entirely with us in the matter, as to what the duty of this committee, together with ours was, and they joined with us with the understanding that the demands were to be made just as they were. All we have to say in regard to the matter is, after conferring with the P. O. S. of A. and all parties agreeing to the same thing, the committees from all the orders went and did just as instructed. What we did was but of a pure motive, asking nothing more than we, as true, loyal American citizens, have a right to request, when we consider we are backed by about 2,800 legal voters in Macon county and more coming every day. We think we have some rights that should be respected and something to say about such things as the several committees were sent to perform.

**Curing Idiocy.**

St. Louis Globe-Democrat: "Apropos of the story going the rounds of the press about the alleged non-development of Baby Ruth's mind," said Dr. Alfred Hewitt, of Columbus, at the Lindell, "it is of interest to note the results of recent experiments made by surgeons in the curing of idiocy in children. Like many other things new in surgery and medicine, these experiments originated in Paris. The idea was conceived that idiocy frequently was caused, where no congenital causes were apparent, by the premature union of the bones of the skull in infants. Acting on this assumption, the French surgeons removed a portion of the body covering of the skull on several patients, the idea being that the brain had not had room to expand commensurate with the growth of the child. The results in many instances proved the correctness of the theory. In some cases the results were remarkable. In one case an idiot girl of 8 years began to show signs of recovering intelligence the very day after the operation was performed."

**For Connelly.**

The Macon county Republican convention yesterday instructed its delegates to the congressional convention to vote for Major James A. Connelly for congress. Christian and Sangamon counties instructed for him several days ago. The Macon county Republicans, including their delegation to the congressional convention, are for him and it is understood that Logan county is also for him which insures his nomination by acclamation on the 14th of this month. This will give him a vigorous and lively start in the race for the defeat of Springer.

**THE STRIKE.**

Everything Quiet Locally.

The Danville Miners Starving and Growing Desperate.

Everything is quiet locally to-day, and there is no pretense on the part of the mine operators to work any men.

**THE MEETING AT SPRINGFIELD.**

The conference of Illinois coal operators at Springfield yesterday morning accomplished nothing. Indeed, it can hardly be said that there was a conference. It developed that forty-one companies were represented, and that they took out 4,521,000 tons of coal in 1892, which was about one-fourth of the tonnage of the state. It was further ascertained that southern Illinois was practically unrepresented and that the great consolidated company was holding out. Vermillion county was represented by one man in the person of Tom Spellman. Those present were from northern and central Illinois. The central Illinois men had no heart in the meeting. Nothing was done under the circumstances and a motion to adjourn was made and carried.

**AT DANVILLE.**

Matters are getting desperate with the striking miners in the Danville field. Many families are nearly starving and relief committees will canvass the farmers for 15 miles here about for something to eat. St. Elizabeth hospital in Danville is out of coal and the patients suffering for the want of food and warmth, but the miners refuse to allow the Sisters coal. Wednesday evening 200 foreign miners held up a Chicago & Eastern Illinois freight train south of Danville until assured that the box cars contained no coal. They proposed to stop all trains carrying coal.

**AT MINONK.**

The miners on strike still continue quiet and undemonstrative. The men have ceased gathering in groups in the center of the city, but there seems to be an air of expectation, as if some secret movement was on foot. It is reported that the men go to work in the Ames mine Monday. Some foreign miners, apparently walking delegates, were in the city to-day.

**AT PANA.**

As the working miners came out last night they were met near the premises of the coal company and threatened when persuasive language was not effective. Nearly 150 coal flat cars were loaded yesterday, half of them with slack taken from the dumps. An effort was made to stop the latter work, but the strikers were given to understand that they should keep their distance. Trouble of a serious nature is expected in the morning when the men try to go to work. The city is filled with notices for a miners' mass meeting at the opera house. The miners are still guarded at night by special deputy sheriffs. The strikers are trying to dispose of and barter their property for money to obtain necessities.

**ALL QUIET AT PANA.**

[Special to the Republican]

PANA, ILL., June 1.—Everything is quiet to-day at Pana. Between 150 and 200 men are at work. It is rumored here that all will return to work next Monday. There is a meeting of miners here to-day, but nothing is known so far for what cause it was called.

**Not Settled.**

A rumor that the coal miners' strike had been declared off in the states of Ohio and Pennsylvania created a little flutter of excitement this morning. It spread rapidly and all manner of conjectures were advanced. A telephone message from Springfield states that the Associated Press had heard nothing of the alleged settlement, and the presumption is that the report had no foundation in fact.

**Baseball.**

The following games were played yesterday:  
At Brooklyn—Brooklyn, 5; Chicago, 2.

At Baltimore—Baltimore, 7; Cincinnati, 1.  
At Washington—Pittsburgh, 15; Washington, 4.

ZELLA NICOLAUS, in Muscatine, Iowa, arranging with her husband for a divorce. She has evidently not given up her theatrical ambitions.

**Suffering Among the Poor.**

The proprietors of the meat markets and small grocery establishments in the eastern part of the city are beginning to feel the effects of the coal miners' strike. "Dozens of applications for goods are made here daily," said an Eldorado street merchant to a Republican reporter this morning. "Many of the applicants tell pitiful stories of want, but we can't help them. If we responded to all the appeals we would soon have to close our doors. This morning a woman came into my place and begged for a little meat. She said that her husband went out on the strike with the other miners, hadn't been able to get any work, and that for the last three days she and her two children had nothing to eat. I gave her a few things and told her not to come back for more. I tell you unless this matter is settled soon many of the miners' families will be brought to the point of starvation."

**Wabash Shops Closed.**

From the Illinois State Journal.  
The Wabash shops closed down last night on account of the scarcity of coal. It is understood that the stop is only for ten days, yet if the miners' strike continues the shops will remain closed. Nothing but perishable freight is being moved at all, and the local freight train is running every other day.

The Illinois Central has also made some retrenchment, running only one passenger train and one mixed train each way during the day. The C. & A. and the O. & M. have taken off no trains yet, but are keeping freight down as low as possible.

**MAY BROOKLYN'S SUPERSTITIONS.**

The Actress Kept in Her Room What Seems to Be a List of Omens.

In Miss Brooklyn's room were writings which attested her superstition. The name of a "test medium and psychometrist" of this city was on a card which she kept. In her handwriting was what appeared to be a list of omens. It began with an incomplete account of what the months had in store for her. This was as follows:

Feb.—Avoid O. S.  
June—P. I.  
Aug.—Good.  
Nov.—

Below this was a statement of what the letters meant. This was as follows:

H—Good; deal freely.  
E—Not so good in woman as man.  
O—Very bad.  
S—Unpleasant news from a distance; surprise.  
A—Good; male or female.  
P—Good.  
K—Very good; male or female.  
T—Good; new friend.  
V—New friend; good; fair man.  
Don't marry in '94; '96 good.  
50 or 61, 8 Q. 5 S.  
B—Is very good; deal freely.  
W—Proposition good for flirtation; never marry.

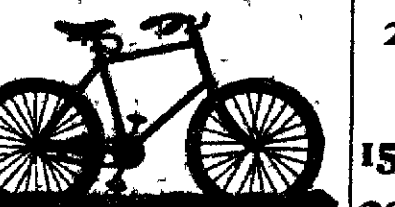

C—Good; male or female.  
M—Better woman.  
T—New friend; good.  
G—Very good.  
N—Not quite so good; be careful.  
She had drawn a rude circle, and there were dots in it as if a pencil point came down in many places. The supposition is that the letters were placed inside a circle, like the numbers on the face of a clock, and she then let the pencil held in her fingers drop wherever chance brought it. The letter on which it hit signified the outcome of whatever she might have been thinking of. In this manner doubtless she found whether the months were to be good or bad for her.

She had marked February as a month to avoid and with the letters "O S." According to the mystic dictionary, "O" meant that February was very bad for her and "S" she would receive unpleasant news from a distance. Curiously she did get some news from New York lately, which is presumed to have been unpleasant; and February proved to be the month of her grievous exit from the world.

A spiritualistic doctor lingered around the Baldwin theater yesterday until he could tell Mr. Presbury, manager of the Palmer company, that he had received knowledge of the reunion of the souls of Lovcraft and Miss Brooklyn. The spiritualistic theory is that when her efforts to establish communication with her lover's spirit failed, she felt the necessity of taking exactly the same terrestrial route that he had employed on. To employ any other point than carbolio acid might serve to keep them parted forever, and so she submitted herself to the scorching liquid. She caught the deadly draft in Columbus, Ohio, Nov. 30 and treasured it until she was impelled to put the bottle to her lips. (San Francisco Chronicle.)

Simple and Pleasant Design That Can Be Built For \$2,000.  
(Copyright, 1894, by American Press Association.)

Sanitary authorities agree that beauty is an aid to the best health and that ugliness is an obstacle to good health. It has been shown by experience in hospitals, where mind and body are enfeebled by bad health, that the introduction of disagreeable objects into the sickroom is painful and injurious to the occupants, while the presence of beautiful flowers, pictures and designs has a curative effect—a kind of mental tonic which invigorates and tones the body. This thought leads us to the consideration of the

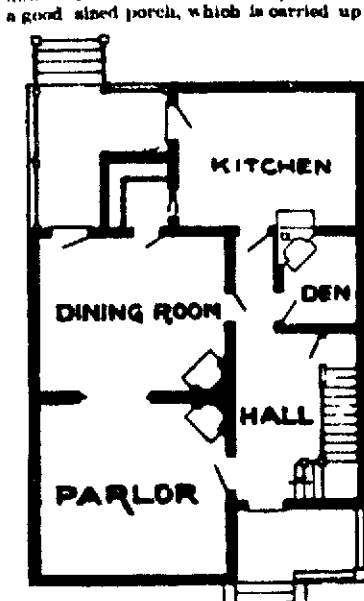

**FIRST ELEVATION**

best forms having regard to effect on the eye and through the eye on mental and bodily health, and so with all the details of visible construction and decoration.

In reference to dwelling houses, no part should be excluded from the promotion of architectural art, because it is the tendency of the human mind to allow that which is disagreeable, plain and ugly to go without regard and accumulate dirt and disorder. Consequently all the offices of the house should have as much care bestowed upon them as the living rooms to render them bright and cheerful and as obviously clean as the more important salons. Persons possessed of moderate means frequently make the error of building too large a house at the sacrifice of the details of both the exterior and interior finish of the building.

The accompanying illustrations represent a modest and sensible design of a home quite suitable for a small family living in a suburban town or village. The exterior is pleasing, and the low pitched roof makes an admirable contrast to many pretentious dwellings, which seem to consist chiefly of pediments and dormer windows. The front entrance is protected by a good sized porch, which is carried up on

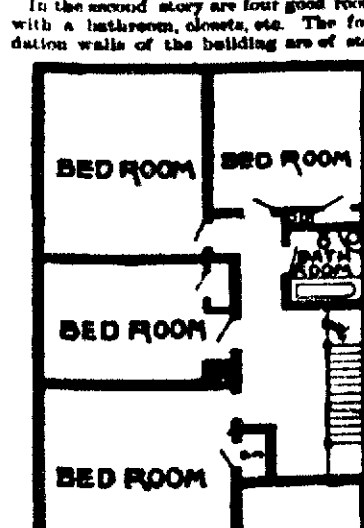

**FIRST STORY.**

as to form a balcony in the second story. There is also a back porch or veranda to shelter the back door of the house. A cellar extends under the whole building, with a cemented floor to make it dry and cool.

In the first story you pass from the veranda into the staircase hall, which communicates directly with the parlor at the left and the corridor at the back. From this corridor doors open to the dining room, kitchen, and den, or smoking room. The dining room is separated from the parlor by an opening which may be closed with folding or sliding doors or curtains, as may be desired. The route to the kitchen passes from the dining room through the pantry in the customary manner in well arranged dwellings. The kitchen is equipped with all modern conveniences, including a range, boiler and kitchen sink.

A large open fireplace, with a grate for burning coal, lends cheerfulness to the den, the most desirable little room in the comforts of a home. This den may be used as a library or would serve as an office for a physician or professional man.

In the second story are four good rooms, with a bathroom, closets, etc. The foundation walls of the building are of stone

**SECOND STORY.**

laid in good cement mortar. Above the foundation walls the building is of wood, strongly framed, sheathed and clapboarded—roof shingled.

The front is ornamented with triple windows, pilasters, moldings of veranda and balcony, cornices and eaves.

Inside the doors and ceilings are lathed and plastered in three coats, in the usual way for best work. The stairs are of (1) pine, with mahogany rails and balustrade. All the other inside woodwork is of (2) pine, in keeping with the style and finish of the building. The building can be erected for about \$2,000.

**PROPORTIONS TO WALL PAPER.**

In wall paper decorations there appears to be a growing tendency toward the French eighteenth century style. Floral scrolls and scrolls predominate. I suspect the colors to be a revival, and there are some new patterns of red and green on a light background.

## THE FLOOD AT PUEBLO

A Second Cloud-Burst Swells the Assuaging Waters.

### CAUSING A NEW CHAPTER OF DISASTER.

The List of Casualties and the Volume of Disaster Steadily Growing with the Advancing Torrent—A Midnight Alarm.

The Flooded Flood Makes the Damage More Apparent.

PUEBLO, Col., May 31.—At noon the flood of early this morning began to abate. The rain ceased and the sun came out. As the water went down the great damage was apparent. The loss will be over \$500,000. The railroad bridges are either down or very badly damaged. No trains can possibly be run in any direction for at least forty-eight hours. Two bodies have been recovered. One is that of an unknown man whose body was found three miles below the city.

Joseph Coppas, a smelter employee, while trying to cross the Santa Fe bridge at Front street lost his bearings and fell into a hole and was drowned. He leaves a widow and three children.

Mrs. Williamson, a widow, living beside the levee, where the first break occurred, is missing. Her two small children are safe at the police station.

A Vandover, a prominent man of this city who was seen crossing Court street when the rush of waters came, has not been seen or heard of since.

John Davis, while walking along South Main avenue in about six inches of water at 5 o'clock this morning, fell into a coal hole which was full of water and was drowned.

Two Chinamen who had a truck garden below the city, are believed to have been swept away.

The flood washed away ninety houses in the Grove, a settlement in the south-east part of the city. Some of the dwellings were carried a mile down the stream.

The loss to stock is tremendous. It will cost the city of Pueblo over \$200,000 to repair the levees, bridges and streets. The wholesale commission houses and large dry goods stores, which are situated in the flooded district are losers of more than half of their stock. The electric railway power house was flooded and the motors in thirty-two cars destroyed. It will be over a week before traffic can be resumed.

The suffering of the poor people who were driven out by the flood is intense. It is estimated that 1,300 people are rendered homeless. The area of the city now under water is five square miles. The police have been notified of several more people who are reported missing.

**A Later Account.**  
PUEBLO, Col., May 31.—The cloud-burst which last night sent a vast torrent of water down the valley and into this city, caused many deaths and rendered widespread destruction. The work of rescue had just begun to-day, when a recurrence of the flood caused a suspension of the work, and it is feared to-night that many bodies which were washed away and under debris will never be recovered. The list of the dead and missing, compiled shortly before midnight, is as follows:

**DEAD.**  
Dave Rafferty, steel worker, 55 years, single; body at morgue.  
Joseph Coppas, smelter employee, 33 years, married; body at morgue.  
One body reported one mile above town and another two miles below; not yet recovered.  
Hop Lee, a Chinese laundryman said to have been drowned in the cellar of his laundry, but search did not reveal the body.

**MISSING.**  
J. Vandever, J. Rush, Harry Burch, Mrs. Williamson, Josie Hart, an infant, and five others reported by different families.

A company of California Coxeyites, numbering sixty, who came in from the west yesterday morning, and were camped on the river bank, report five of their comrades missing.

Grave fears are expressed for twelve families of squatters on an island near the river. There is no means of reaching these people at present.

The catastrophe, similar to the Johnstown horror of four years ago and remarkable for having occurred on the same day, has utterly prostrated the citizens and paralyzed business. The property loss will be about \$500,000. To-night both the Arkansas and Fountain rivers are rising rapidly and rain is falling in torrents. But for a light here and there, the city would be in darkness and many fear a repetition of last night's horror.

Seventy-five feet of the east approach to the Fourth-street viaduct caved in shortly after midnight. The west bank of the Arkansas at this point is being rapidly eaten away by the angry waters. The 100 men who were put there this evening to fortify the bank have thus far proved unequal to the task.

The rain has partially ceased, and while the fountain is still rising the rate is not so rapid as two hours ago.

**DENVER, COL., ISOLATED**  
By Damage to Railways by the Late Great Storm.

DENVER, Col., June 1.—This city was practically isolated from the remaining portion of the state for most of yesterday, owing to the damage done to railway, telegraph and telephone lines by the heavy and steady rainstorm that had prevailed for forty-eight hours. The extent of the damage can not be estimated further than to say it is unprecedented. Until late in the day the railway officials did not even know where the troubles under their respective lines were located and business

was at a standstill. It will require another day to place the roads in such shape that traffic may be resumed upon the through lines.

Gov. Waite is said to be tied up in Eight Mile canyon, on the line of the Florence & Cripple Creek railroad, with bad washouts on both sides of him. Some effort will be made to get him to Colorado Springs or Florence by wagon. The Denver & Rio Grande railroad was the worst sufferer, having washouts along the line from Canyon City to Pueblo, and north toward Colorado Springs. The company had but one wire working, and reports made during the early evening show that the breaks in the track are numerous. Work trains are in readiness to go out as soon as the flood in Pueblo subsides.

The Santa Fe route is badly washed between La Junta and Pueblo near Colorado City, on the Midland, and up Ute pass.

### A Note of Warning.

DENVER, Col., May 31, 11 p. m.—The whistle at the Denver paper mills south of the city began to blow at 11 o'clock to-night to warn the residents in the Platte River bottoms to seek higher ground. The river has been steadily rising at the rate of from four to six inches an hour all day and at this hour it is outside its banks until the water is backed up to the Rio Grande shops at Burnham.

The thousand Coxeyites in River Front park have been warned out. At Jerome park the residents sought refuge in a school house, which is now partially submerged. If the water rises much higher they will have to swim out.

### FRAZER RIVER STILL RISING.

All River Steamers Commissioned by the Government to Rescue Imperiled Persons.

VANCOUVER, B. C., May 31.—The Fraser river is still rising, and the indications are that the flood will be more disastrous than the one of 1892. The tide is now crawling up at the rate of an inch every three hours.

At Westwater the river wharves are submerged. Many cabins along the water front have floated off on the tide, and many poor families have lost all their belongings. Points further up the river report that the danger increases. At Nicomen island, forty-four farms are entirely under water.

Annas island, two miles above New Westminster, is totally submerged. Many fine farms formerly dotted the island. The ranchers were rescued by steamboats, but all their stock has gone down the river. All the river steamers have been commissioned by the government to assist in saving imperiled persons. In the vicinity of Ruby the greatest danger is apparent, and several steamers have been dispatched to the district.

### The Town of Conneville Swept Away.

SPOKANE, Wash., May 31.—Word reached here last night that the town of Conneville was swept away by a flood. It is said that every business house in town was destroyed, and that nearly all the residences were swept away. Mrs. Almira Kerth lost her life. Much suffering is reported among the inhabitants of the devastated town.

### GOV. MATTHEWS' MANIFESTO

Seems to Stiffen the Backbones of the Sheriff of Hoosierdom.

BRAZIL, Ind., June 1.—The proclamation of Gov. Matthews insisting on the sheriffs of the counties in Indiana where the miners are showing a riotous disposition maintaining the law has had a good effect here. Sheriff Ring of this county said he would enforce the law and disperse all bodies congregated to stop moving trains on any railroad through the county.

A letter was received by a prominent miner from President McBridge admonishing the men to keep orderly, and assuring them that the end of the strike was in sight. The slack, which has been diligently guarded at Rosedale by miners and their wives for the past two weeks, was taken to Chicago yesterday by a train crew, and no resistance was offered by the strikers.

A crowd of strikers pushed a box car off the side track onto the main line of the Vandell last night, and stopped a freight, and examined it to see if coal was being concealed in box cars.

### A Cyclone in Arkansas.

BRINKLEY, Ark., June 1.—News reached this city yesterday of a terrible cyclone which passed through Arkansas county Wednesday night about 12 o'clock. The south-bound Cotton Belt passenger would have been caught in the cyclone but for the engineer, who stopped the train until the cyclone had crossed the track a short distance ahead. The track was covered with debris causing considerable delay to the train. The damage is considerable, though no lives have been reported lost.

### Six Hundred Coal Miners Resume Work.

CHATTANOOGA, Tenn., June 1.—The Pikeville Mining Co. has leased the Whitwell (Tenn.) Coal and Iron Railway Co. and will begin the working of the deserted shafts to-day. The entire force will be taken back. The old scale will obtain as the strike was merely out of sympathy. This means the return to work of 600 strikers.

### Elected to the Academy.

PARIS, June 1.—Paulorget, the well-known novelist, and Albert Sorel, the historian, were elected yesterday as members of the academy, to fill the vacancies caused by the deaths of MM. Ducloux and Taine. No votes were cast for M. Zola.

### Chief Justice Fuller.

WASHINGTON, June 1.—Chief Justice Fuller of the supreme court of the United States left Washington last night for Chicago. Upon his return he will proceed to Richmond, Va., to hold court there.

### Declared the Government's Programme.

PARIS, June 1.—The declaration of government's programme was read in the senate by M. Guerin, minister of justice.

## THE SUGAR INQUIRY.

All the Members of the Finance Committee Examined.

### ALL ENTER CATEGORICAL DENIALS

Of the Statements Made in the Letter of Correspondent Edwards—The Secretary of the Treasury Also Denies.

WASHINGTON, June 1.—The committee conducting the sugar trust inquiry yesterday completed the examination of all the members of the finance committee, those heard being Senator McPherson, Harris and Mills. Each of these gentlemen denied categorically the statements made in the letter of Mr. Edwards, to the effect that the secretary of the treasury had appeared before the committee and stated that the Sugar trust had made large contributions to the campaign committee and must be taken care of in the arrangement of the duty on sugar, and also that he prepared a schedule giving high rates to this article and demanded that it be adopted. Later in the afternoon Mr. Carlisle himself appeared and made a similar statement. Mr. Carlisle told the committee that he had drawn a proposed schedule for the committee while he was at one of the meetings of the democratic members, but that it was not adopted. In doing this he said he acted in an advisory capacity, and gave the committee facts and data such as they asked for, and which, as the secretary of the treasury, they would naturally expect to receive from him.

To-morrow the committee will have before it Mr. John Dewitt Warner, a member of the house of representatives from New York. It has also issued a summons for Mr. Gaston, the Pennsylvania wire manufacturer, who is said to have overheard the conversation alleged to have taken place in a room at the Arlington hotel between Sugar trust magnates and certain senators regarding the duty that should be put upon sugar.

Yesterday afternoon the vice-president sent by special messenger to the district attorney his certification of the report of the committee in regard to the refusal of the witnesses Shriver and Edwards. It reads:

UNITED STATES SENATE  
WASHINGTON, D. C. May 31, 1904.

I, Adlai E. Stevenson, vice-president of the United States, and president of the senate, in pursuance of the statute in such case made and provided, hereby certify to the United States district attorney for the district of Columbia that Ellisha J. Edwards and John S. Shriver, each having been summoned as a witness by authority of the senate to give testimony upon the matter under inquiry, by and under that certain resolution of the senate, adopted May 17, A. D. 1904, appointing a special committee to investigate certain matters stated in said resolution, and having appeared before the committee appointed by said resolution, did severally refuse to answer sundry questions pertinent to the question under inquiry, as manifested by the report of said committee, and by its proceedings, a copy of which is hereto attached.

In witness whereof I have hereunto set my hand and caused the seal of the senate to be affixed, this 31st day of May, A. D. 1904.

A. E. STEVENSON  
Vice-President of the United States and President of the senate

### THE ARMOR FRAUDS INQUIRY.

Prof. Alger, of the Bureau of Ordnance, on the Witness Stand.

WASHINGTON, June 1.—The investigation into the alleged armor frauds was continued yesterday. Prof. Alger, of the bureau of ordnance, testified as to the part he had taken in the investigation ordered by Secretary Herbert. He reviewed generally the work of the board—practically the same matters covered by the testimony of Capt. Sampson, also a member of the board.

Replying to a question by Mr. Dilliver he said that it was impossible to say from a physical test what a plate would do under a ballistic test. He was of the opinion that the tests made by the investigating board had absolutely established the charges by the men.

The second charge made was that the frauds extended over a longer period of time and were more extensive than at first supposed. He was satisfied from the tests made by the board that this was true. They probably existed from the beginning of the manufacture of plates by the Carnegie Co.

Prof. Alger expressed the opinion that there were probably plates among those accepted that would not pass the ballistic test. He reached this conclusion from the careless manner in which the plates were made, and from the treatment of plates selected for ballistic test. He could not specify any defective plate. He was asked a number of questions as to what led the president to reduce the penalties recommended to be levied on the Carnegie by the investigating board, but was unable to answer these questions. The committee adjourned until Monday next.

### THE CRUISER COLUMBIA

To be Immediately Dry Docked and a Court-Martial to be Ordered.

WASHINGTON, June 1.—Officials at the navy department were treated to a sensation about the new cruiser Columbia, when the Selfridge inspection board headed in its report of her condition and performance on the recent official trial trip. The action of Acting Secretary McAdoo, yesterday morning, in ordering the vessel immediately into the dry dock at League island shows that the authorities are going to lose no time in investigating the extent to which the vessel's hull has been damaged. It is understood that upon the result of the examination ordered by Mr. McAdoo a naval court-martial will be ordered to fix the responsibility for no less an offense than that of running the magnificent vessel aground and smashing a dent in her side below the water line.

## TELEGRAPHIC NOTES.

The Russian government will build, in 1905, three new ironclads for the Black sea.

A special from Pueblo, Col., says that several people have been drowned in the floods. The damage will exceed \$500,000.

Traffic on the Pike's Peak railroad at Manitou, Col., has been entirely suspended for the first time in history, by reason of great damage to the roadbed by storms.

Lord Dunsarvon's yacht Valkyrie has arrived at Gosport. She reports having encountered easterly gales throughout her passage from New York to the coast of Ireland.

Several persons were severely and one fatally burned by fire in a New York tenement house yesterday. Many were saved by jumping into blankets held by half-naked neighbors.

The lumber warehouse of E. H. Eldredge & Co. of Indianapolis, Ind., and five dwelling houses and a number of valuable houses were destroyed by fire yesterday morning; loss, \$30,000.

Frank Hruby, a St. Louis boy, asked his father for some money, and was told to go to work and earn some. He retaliated by shooting his father three times, inflicting painful wounds.

It is reported in London that the Duke of Devonshire, the Duke of Portland and Baron de Hirsch have decided to retire from the turf and sell their racing horses, and that this action will be taken shortly.

Ex-President Harrison and ex-Attorney-General Miller were yesterday admitted to practice in the United States court of appeals for the seventh circuit, which convened in its new quarters in Chicago yesterday.

Geo. John Hawston, an American, was arrested in London on Wednesday for fatally injuring a street musician named George Burton by driving the ferrule of an umbrella into his eye.

The Rio Grande and Santa Fe railroads are seriously crippled at many points by washouts, rock slides and washed-away bridges. The damage by the late storms throughout the state of Colorado will doubtless be very great.

The Bank of Enterprise (Kan.) has been closed by Bank Examiner Breidenbach. Its assets are nominal, and liabilities are about \$20,000. The failure caused no surprise, as its shaky condition had been generally known for several months.

Willis Edward Wilson, proprietor of a St. Louis restaurant, was taking six dollars from a roll containing \$205, when for a fatal instant Charles Harring, a dissatisfied cook, seized Wilson, threw him to the floor, grabbed the roll and made good his escape.

The communal committee of Paris held a meeting Wednesday night and resolved to visit the Pers in chains tomorrow in a body every Sunday until they are allowed by the authorities to conduct an appropriate demonstration in memory of their dead comrades.

The Central Trust Co. of St. Louis made an assignment yesterday morning. W. W. Leonard, secretary of the company, was yesterday assigned. The business depression is alleged as the cause of the failure. The assets are said to be ample to cover the liabilities.

Gov. Matthews yesterday issued a proclamation commanding the striking miners who are obstructing the passage of trains in the counties of Clay, Parke, Vigo, Sullivan and Vermillion to disband, and calling upon the sheriffs of those counties to enforce the laws.

Two small children of County Commissioner P. B. Fisher wandered into the barn at their home near Bates, O., Wednesday evening, and were trampled to death by a vicious stallion which had got loose from his inclosed stall. The mother of the children died only a few days ago.

The conference of the coal operators of Illinois, held in the senate chamber of the statehouse to arrange prices and come to an agreement whereby the competition of the northern and southern and central Illinois fields could be adjusted, to the end of settling the great coal strike, came to naught.

Three men falsely pretending to belong to Kelley's army, entered the home of Elias Johnson, a St. Louis newspaper, and two of them assaulted Johnson's wife. As they were leaving Mrs. Johnson seized a shotgun and shot one of the men in the arm. All three of them were subsequently arrested.

The appeal of Chief P. M. Arthur of the Brotherhood of Locomotive Engineers and other labor leaders against Judge Jenkins' now famous strike injunction was given precedence of the docket, when the United States court of appeals for the seventh circuit convened in Chicago yesterday morning.

Vice-President Stevenson said yesterday that he would send to the district attorney his certificate with reference to the refusal of Correspondents Edwards and Shriver to answer questions asked by the Sugar trust investigating committee, with a request that the government enter criminal proceedings against them.

The third indictment against Col. Alinsworth, chief of the pension record division of the war department, for manslaughter, in connection with Fort Fisher disaster, has quashed yesterday by Judge McComas on demurrer. This practically ends the prosecution of the case, and secures Col. Alinsworth's release from his bond.

The official treasury statement issued today shows that the expenditures of the government for the eleven months of the current fiscal year have exceeded the receipts by \$72,000,000. The aggregate standing in round figures Receipts \$2,000,000,000, expenditures, \$2,072,000,000. These figures indicate a total deficit for the twelve months of the fiscal year of about \$72,000,000.

### A WORK OF VANDALISM.

The Bust of Ex-Premier Stambuloff, of Bulgaria, Destroyed by a Mob of Students and Others.

SOFIA, June 1.—An enormous gathering of students and others invaded Sofia park, yesterday morning, and destroyed the bust of ex-Premier Stambuloff, which occupied a prominent place in the restaurant therein. This work of vandalism was accompanied by a tremendous uproar. The city is greatly excited, and riotous demonstrations are frequent. The police who were placed at the disposal of M. Stambuloff Wednesday evening made a demand that the troops withdraw from the vicinity of the palace. The troops refused to withdraw, and now occupy the whole city. A student who was wounded in the disturbance died yesterday morning.

### Starving Miners and Suffering Hospital Patients.

DANVILLE, Ill., June 1.—The striking miners in the Danville field are on the verge of starvation. Relief committees are begging the farmers for something to give the starving miners and their families. The patients at the St. Elizabeth hospital are suffering because there is no coal and the strikers have refused to allow any fuel to be mined for the sisters in charge of the institution. Two hundred foreign miners are watching the tracks of the Chicago & Eastern Illinois railroad. They are determined to stop all trains carrying coal.

### Departure of the Vigilant.

QUARANTINE, Staten Island, June 1.—The yacht Vigilant passed out the Narrows at 12:05 a. m. yesterday in tow of a tug and escorted by the yacht Vanocoe. The weather was lowering and an easterly gale appeared to be imminent.

Is now on in the Senate. No matter what the outcome may be, better bargains cannot be offered than we are offering now.

CHEAP CHARLEY.

## QUIET EXPECTANCY.

The Condition of Affairs at Cripple Creek, Col., Under Military Rule.

CRIPPLE CREEK, Col., June 1.—Yesterday all was quiet expectancy on the hill. A regular court-martial has been established, and a session is held nightly. The strictest military duty is now enforced, and pickets change on the hour as regularly as soldiers in the regular army when on duty.

The miners on Bull Hill received a large quantity of provisions and ammunition at their headquarters Wednesday afternoon, and evening and are reinforcing their position at every point, notwithstanding the reports being circulated that they are weakening in their positions.

Three of the stages on the Cripple Creek and Canyon City mail lines to Lawrence have been stopped by armed men. The drivers were compelled to stop until all the passengers had been searched and relieved of all firearms.

### Fleeced Guilty.

NEW YORK, June 1.—In the court of oyer and terminer in Jersey City yesterday morning Dennis McLaughlin, Gottfried Walbaum, John C. Carr and Nicholas Crustus, charged with keeping a disorderly house at Guttenburg race track, withdrew their pleas of not guilty and submitted a plea of guilty. This plea was accepted, and the case was adjourned for two weeks in order that the proper sentence could be decided upon. It was reported that an agreement had been entered into between the state and the defendants that they would be fined \$1,000.

### To be Married Next Wednesday.

BALTIMORE, Md., June 1.—It is announced that Miss Elsie Boyd Lombard of Hutt's "A Temperance Town," and John Tomlinson Brush, of Indianapolis, president of the Cincinnati baseball club, will be married on Wednesday, June 2, at the Church of the Messiah, in New York.

### Appeals for Assistance Steadily Increasing.

LONDON, June 1.—The manager of the church emigration society of London says that notwithstanding the decrease in the total emigration to Canada the number of families applying to the society for assistance to emigrate to Canada is steadily increasing.

### Before the End of the Honeymoon.

MILWAUKEE, Wis., June 1.—W. A. Neolaus, husband of Zella Neolaus, yesterday filed a petition in the district court here asking a divorce from his wife on the grounds of desertion and adultery. The case will come up for hearing in the June term.

### Paper Mill Burned.

MIAMI, Fla., June 1.—The Friend paper mill and pulp works burned yesterday. Total loss, \$50,000, insurance not known.

### Marvelous Results.

From a letter written by Rev. J. Gunter of Diamonddale, Mich., we are permitted to make this extract: "I have been a believer in recommending Dr. King's New Discovery, as the result was most marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia, succeeded by a Grappe. Terrible paroxysms of coughing would last hours with little intermission, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick and work and highly satisfactory in results. I had a bottle free at King & Hubbard's drug store. Regular size, 50c and \$1.00."

J. H. CARPENTER of Reading, Pa., has done a great deal of work and highly satisfactory in results. I had a bottle free at King & Hubbard's drug store. Regular size, 50c and \$1.00."

The Geo. W. Jones & Co. nine went to Bement to-day to play ball with the team of that town.

FRUITS, vegetables and many other good things at D. Garrett's, 749 North Water street.

Don't miss the golden opportunity of seeing the beautiful play at the opera house to-night. Admission, 25c.

A LONG line of loaded cars passed through the city this morning over the Illinois Central.

The Hatfield mills had steam up this morning and were running as usual. A great deal of wheat has been received during the last few days.

The office of the Decatur Coal company has been newly painted and papered throughout, and the old gas fixtures have been bronzed.

LADIES' "Blouse" sets, consisting of 3 buttons, 1 collar button and 1 pair cuff buttons to match, made in silver in great variety at Otto E. Curtis & Bro's.

ONE of Decatur's talented young ladies will give a faithful portrayal of the filial affection of, "Parthenia," the Greek maiden, at the opera house Friday evening.

ANYBODY can be satisfied at the C. B. Prescott music house. Step in and see the magnificent pianos and elegant organs. They can be had at low figures and on easy terms.

PROF. LEBMAN, the celebrated composer and musical conductor, of Springfield, was in the city last night, and with his orchestra furnished the music for the Salvini entertainment.

CHAS. HUMPHREY, the well known and popular singer, whose fine renditions delighted the audiences at the May festival, will soon depart for Europe to continue his musical studies.

E. THAYER, who recently purchased the bakery at 733 North Water street, has painted and decorated the shop until it presents a very neat appearance.

"INGOMAR, the Barbarian," at the Opera House Friday evening. The tickets are selling rapidly. Get reserved seats now at the Opera House drug store.

PROF. HAYWOOD, who plays "Ingomar" to-night, has supported such first class artists as Madam Janaschek, Madam Modjeska, Rhea, Vokes, Star, Barrett, Booth, and has been a family attraction for several years.

AN! YES; I need some insurance, and have some surplus cash to invest in Decatur real estate. I'll just go over and see Gay & McKiff, 337 North Water street. They're the hustlers, and can fit me out. 28-35t

USE WHITE LOAF FLOUR.

The Decatur Planing mills is crowded with work notwithstanding the hard times. The manager states that there has been little falling off in the volume of orders for building purposes. Many of the orders come from the city.

Tax collector conversation was overheard on a street car this morning: "Good morning, Mr. Smith, where are you going this morning?" "Why, Mr. Nicodemo, is that you? Haven't seen you for an age. What you been doing?"

Garrett's, 749 North Water street, for our groceries. He has the best of everything in groceries, canned goods, vegetables, fruits, etc., and my husband says we have never lived so well before we bought of him, and then his prices are so reasonable that we save enough on our bills to buy many little things that we used to do without."

Seldom is it our pleasure to hear as high an order of music as heard last night at the closing concert of the festival, especially of the chorus in "The Lord is My Shepherd" and "Praise Be the Lord." Mrs. Templeton sang the solo, "Yea Though I Walk Through the Valley of the Shadow of Death" in the most artistic manner, being heard distinctly above the orchestra and chorus. If the author could have heard "The Violet," as rendered by Mrs. Templeton last night, he would have been satisfied. Never was her voice heard to better advantage. For an encore she sang Barcarolla "Boating Song" in a graceful flowing manner. The "Lullaby" sang by Mrs. Templeton was touchingly beautiful and the audience was spell-bound. The greatest compliment that could be paid this excellent vocalist was the utter stillness that possessed the audience during the rendering of the song. So spellbound were the people that they hesitated for a moment to break the impressive silence by applause.

MARRIAGE licenses have been issued to W. N. Boggess and Miss Fern Riley, both of Decatur, and Wm. H. Gabriel and Miss Mattie V. Zigler, both of Decatur.

MATERIAL is being hauled to the grounds and work on the new Brenne-man block will begin next week.

THERE will be a great bicycle meet at Carlinville, Macoupin county, on June 19, when \$500 in prizes will be offered.

The Calumet ball team practices every evening at their grounds in Riverside Place.

The paving brigade on East Wood street has nearly completed the grading.

## PEDALINGS.

Things of Interest to Local Wheelmen.

A morning paper to-day prints an article advocating track races for the Fourth of July. This would be impossible without the sanction of the L. A. W. board, which would be very hard to secure since the state meet of the L. A. W. will be held at Quincy on that day. But it would be possible to have a road race that day and over the same course that was covered Decoration Day. Already the wheelmen have taken it up and it is quite probable that the race will be a feature of that day. A large number of wheelmen also had signified their intention of entering if the event is arranged for. Many agree with H. W. Bartholomew, who said, "You can't have a road race too often for me. I will enter them all." A meeting of the Decatur Cycling Club will be held next Thursday and it is possible that something will be done at that meeting regarding the talk of race.

A large number of local wheelmen will go to St. Louis to witness the great Forrest Park road race. Decatur will be represented in the races by W. S. Ruby, Frank Falmehue, George Hart, Frank Faries and L. E. Rogers. They will leave for St. Louis to-morrow with A. F. Wilson as manager. There are over \$1000 worth of prizes offered and it is expected the Decatur boys will carry off their share. There are 102 entries and the race is for seventeen and a half miles.

AT KANSAS CITY. C. E. Jacques, of Kansas City, won the Kansas City road race Decoration day. The course was ten miles long and the winner's time was 32 minutes and 1 second. L. E. Rogers, of Decatur, was entered in this race and rode the course in 30 minutes and 47 seconds. His handicap was 1 minute and 30 seconds, while the winner was handicapped 5 minutes, 30 seconds. Ed A. Grath, of St. Louis, won the time prize in 28 minutes and 41 seconds.

THE HERO OF THE WHEEL. Alexander, William Pitt, Lord Byron, David and Julius Caesar did some remarkable things before they were twenty, yet we never heard that any of them ever won a bicycle race. Young Mr. Rau, who lives out on Huron street, and is only sixteen years old, raced ahead of 407 other wheelmen yesterday and covered, as they say, eighteen miles in fifty-seven minutes and ten seconds. That is faster than most ocean steamships go. It is faster than the best trotting horse could have traveled that distance. Considering the circumstances—the high, cold wind, the interference of the crowds and the imperfections in the road—it was an astonishing performance for a young man. Rau and he deserves to be classed among the men who have done big things before their heads were grown. Hero's that he may continue to hump himself over the handle, making the minutes of his miles draw in as the hours of his life prolong, and that, mindful of the fickleness of fame, his head will grow inversely as the circumference of the calf of his leg.—Chicago Post.

Will Probably Recover. Alfred Weaver, who was so badly injured by a runaway team yesterday will probably recover. His physicians report his pulse and temperature nearly normal. He was perfectly rational this morning, recognized persons around him and was able to converse rationally when spoken to. His mother came in yesterday afternoon and remained by his bedside for several hours. His skull was not fractured, as at first reported, but the physicians feared concussion of the brain. These symptoms have nearly disappeared, and unless unforeseen complications set in, recovery will be rapid and complete.

A Musical Association. Since the grand success of the May Festival has left its impression on the musical talent in this city so deeply, it is causing a great many admirers of music to take steps toward the organization of a musical association. There are already several musical clubs, but it is the purpose of the enthusiasts to gather in these clubs into one large organization. It is a commendable idea and should receive the hearty endorsement of everyone in the musical world and without.

Will Reside in Decatur. MARRIED—By Judge Murray, in the county court room, Thursday, May 31st, Mr. David G. Welford and Miss Sarah F. Hutchings, both of Sioux Falls, South Dakota.

The groom is engaged in the insurance business. He is 51 years of age. The bride is the daughter of P. Hutchings. They will reside in Decatur.—Springfield Journal.

Church Festival. The members of the Cumberland Presbyterian church will give an ice cream and strawberry festival in the W. C. T. U. Hall Friday evening. Every body is invited. \$1.42t

Wood for Sale. Wood for sale: I have 400 cords of wood (seasoned hickory) for sale which we will load on the cars on Terre Haute and Peoria railroad at \$1.85 per cord. GREEN BROS., Oakland, Ill.

Festival at Elwin. The members of the W. C. T. U., of Elwin, will give a strawberry and ice cream festival Friday evening, June 1st. Come everybody—have a good time and help a good cause. Dr. T. S. Houshka, Dentist, Opera House Block, ground floor. mar20-dtf

## VARIETIES OF FLIES.

The Difficulty in Distinguishing House Flies from Biting

"The naturalist recognizes many different species of flies in this country," said a drummer at a hotel; "but in our household we reduce them down to three varieties—household flies biting flies and blue-bottle flies. The latter are readily distinguished, but the two former are often confounded. They may, however, always be identified at a glance by the position they assume on the wall. A common house fly is most invariably roosting with its head downward, and whichever way it might alight, it works its position around until this direction is assumed. The biting flies, on the contrary, invariably rest with their heads pointing upward, precisely like the blood-thirsty mosquito. An eminent Russian entomologist, now residing in this country, told me that some years ago he noticed a peasant in his own country killing some of the flies on the wall of his hut, without disturbing others, and on being questioned he gave as his reason that those with their heads up were 'biters,' and the others were not. A careful examination proved the accuracy of the ignorant but observant man's statement."

Nearly 60 Per Cent. Native. Chicago Journal: To the Editor: I heard the following statement from a pupil on Sunday: "Eighty-seven per cent of the population of Chicago is foreign born." What is the fact in the case? Please inform us in your paper and oblige. Truly, Suburban.

This is one of those fallacies that will not down. According to the census of 1890 the population of Chicago was 1,099,850. Of these 640,184 were natives and only 459,666 were foreign born. It will be seen the native population is almost 60 per cent of the whole. When it comes to males of voting age the proportion of native to foreign born is almost reversed. The figures in a total of 331,593 being 133,109 native to 198,484 foreign born. There is a further division of the natives into 71,944 white males of voting age of native parents and 65,390 of foreign parents. There is therefore absolutely no foundation for the assertion that the population of Chicago is 87 per cent foreign born. It is true, however, that 77 per cent of the voting population is foreign born or native of foreign parentage.
